Dear Detroit Health Department:

We are aware of the elevated water test results and where results occurred in the building.

We will minimize lead exposure at location in the short term by replacing the faucet in the area of concern. (Completed 08/31/16)

Beginning today, we will begin flushing the pipes in the kitchen daily for 1-2 minutes and after every extended break (i.e. weekends, holidays, etc.) prior to use.

Within two weeks, there will be a follow-up to retest the area as test other areas in the school.

Sincerely,

*Thomas Goodley*
